Homework, one page at a time.

Built for students whose brains move fast. Every box on the daily page was designed around a real executive-function struggle - getting started, losing track of steps, time slipping away, and silly mistakes at the finish line.

- Recharge First - snack, water, move before homework
- Top 3 + a tiny 2-minute first step to beat procrastination
- Write-every-step homework table with Guess vs Real minutes
- Focus Sprints with movement breaks + a hyperfocus alarm
- Distraction Parking Lot and a Before-I-Hand-It-In checklist
- Win of the Day, weekly friendship check-in, monthly reset
- “How My Brain Works Best” card to share with teachers
